

Statement on COVID-19 (Coronavirus)

25th March, 2020

In view of the current circumstances surrounding COVID-19 and several government advisories, **TCI has halted operations in its Hyderabad facility from 24th March onwards and until further notice** to stop the spread of coronavirus.

Our Chennai facility remains operational with a minimum essential work force and we are taking all reasonable means to continue serving our customers and delivering our products from our Chennai facility. However, in view of the disruption of services of most of our primary delivery partners, we regret to announce a possible delay in our delivery services on 25th March. Our customer service and logistics teams have been working round the clock to communicate the same with all our esteemed customers regarding the delay in servicing your orders during this period. We expect to resume operations as soon as some of the restrictions imposed on vehicular movement is lifted.

Please contact us with any questions or concerns. Thank you for choosing TCI!
