

20 September 2024

Dear Valued Customers,

We hope this message finds you well. We are pleased to inform you that our diligent efforts have yielded positive results in addressing the recent challenges we encountered with the increase in custom duties under chapter 98 for the import of our chemicals. Following our meeting with CBIC officials on August 27, 2024, we received clarification from the government on September 19, 2024, stating that Chapter 98 intended only for the import of laboratory chemicals for own use, excluding activities such as trading or resale.

TCI Team @ CBIC Office, Delhi

In light of this development, as detailed in Notification No. 62/2024-Customs (N.T.) dated 19th September 2024, we are now permitted to import our chemicals under the global classification chapters. Consequently, we are reverting to our previous pricing structure as per the 2024-25 price list. The revised prices will be updated on our website from 25th September 2024. Until the updated pricing is published on website, we kindly request you to take quotes from our customer support team (or) authorized channel partners for your requirements. Also, you can request for price list from our customer support team.

Additionally, we would like to inform you that although the current stocks available in Hyderabad was imported at the higher custom duty rate, TCI is committed to supporting the scientific research community by offering these products at the regular catalogue prices.

We encourage you to take advantage of the restored prices and continue to support us with your orders. Your unwavering trust and patronage are invaluable to us, and we remain dedicated to serving your needs with the highest quality products and services.

Warm regards

S V M K Anil Kumar

National Sales Manager
