

Technology for Materials Science

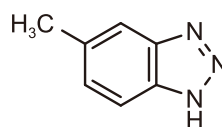

Production in Bulk Scale

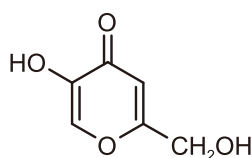

For the following compounds, TCI has the good records of guaranteed of trace metals.

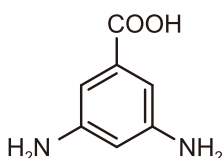

trans-CyDTA
CAS No. 135572-95-4

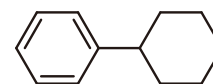

5-MBTA
CAS No. 136-85-6

Kojic Acid
CAS No. 501-30-4

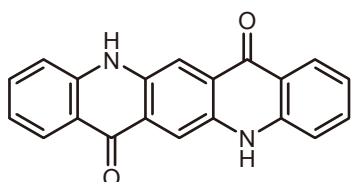

3,5-Diaminobenzoic Acid
CAS No. 535-87-5

Phenylcyclohexane
CAS No. 827-52-1

TCI can provide chemical compounds based on your request in bulk scale.

Sublimation Purification in Kg Scale

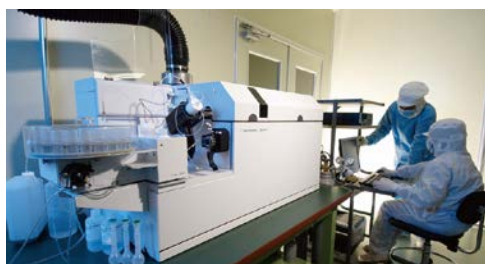

Quinacridone
[Q0083]

Fig.1. Comparison between the appearances of quinacridone (Q0083) before and after the sublimation

Analysis of trace metals by ICP-MS

ICP-MS

Glove Box

Analysis of trace metals using ICP-MS, Handling in Clean Room and Glove Box etc.

Quotation Process

We are ready to supply your special requirements.
The normal flow for handling your request will be as shown below.

If you need any information from us, such as company terms and conditions, please contact us:

Confidentiality

Irrespective of whether we have a formal secrecy agreement in place with you, TCI will handle your inquiry and other information with the utmost confidentiality. Should you wish to have a formal agreement put in place before disclosing any details, we will be pleased to arrange this.

Customer Disclosed Synthetic Route

We examine your requirements based on your own disclosed technical information. If we feel that additional chemistry or analytical testing is required we will discuss this with you and allow for any extra work in the quotation.

TCI Synthetic route

Where you have no synthetic information about the product required, TCI will use its skills to explore options. Having carefully reviewed these, we will then provide a quotation based on our in-house expertise.
