

FOR IMMEDIATE RELEASE

TCI Chiral HPLC Columns

Suspension of Sales

February 4, 2019 — Beginning March 31, 2019, TCI will suspend sales of chiral HPLC columns. The required raw materials for stationary phase production are in short supply and the forecasted production output over the next 2 years is extremely low. We plan to procure these raw materials and resume sales once supplies have returned to normal levels.

Affected Products:

- **TCI Chiral**
 - (TCI Chiral MB-S, BP-S, CH-S)
- **TCI Chiral RP**
 - (TCI Chiral MB-S RP, BP-S RP, CH-S RP)
- **TCI Chiral Guard Columns**
 - (TCI Chiral Guard Columns 1mm, 3mm)

If you have any of these products, please note they can be stored for long periods of time when in an unused/unopened state. TCI has limited supplies of these products available now. Our other HPLC columns are not affected and normal sales will continue. For any questions or inquiries, please contact the appropriate TCI customer service center listed below.

We apologize for any inconvenience this may cause your research.
